

CORPORATE
PROFILE

COMPANY OVERVIEW

Yasho Industries Limited Commenced production of Specialty Chemicals in the year 1993 at Vapi, Gujarat. Since late 1990's, Yasho diversified into various Specialty Chemicals and expanded their facilities to produce Food Antioxidants, Aroma, Rubber Chemicals and Lube Additives.

In 2008, the company set up a second unit in Vapi, to exclusively manufacture full range of Rubber Chemicals/Specialty based on 'S' Chemistry, entirely developed through in-house R&D over the past two decades.

Yasho has a strong leadership team that is committed to excellence in Innovation, Product technology, Marketing and after Sales Service. Yasho regularly take part in Trade exhibitions in India and abroad to enhance Visibility and Market presence in local and overseas market. Our strong leadership quality has taken the company from a local manufacturer to a global player in the quality chemical industry.

Yasho has a strong distributor network in major consumption centers worldwide.

Yasho has a record of sustained growth in Production Capacity, Financial stability and Value added Products.

Yasho has been involved in addressing various issues of education , health and employment of local work-force and believes that long term success of organization depends on a stable and economically viable community.

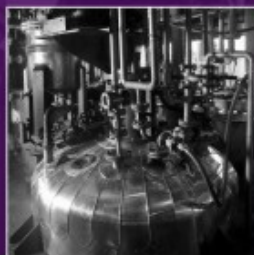

PRODUCTION FACILITY

Yasho has its corporate headquarter in Mumbai and two manufacturing units in Vapi, Gujarat. It is strategically located about 200 kms from Nava Sheva seaport , thereby facilitating easy access for import and export of raw materials and finished products.

Yasho uses state of the art technology and statistical process control to produce consistent quality Products.

Over the last several years , the company has invested millions of rupees in capital equipment and infrastructure. Processes and improvements developed in R & D are transferred to pilot plant for trials and on successful completion of trials implemented in production units.

Yasho has a broad portfolio of products in Aroma, Rubber Chemicals , Food Antioxidants, Specialty and Lube Additives developed through indigenous R & D work.

RESEARCH & DEVELOPMENT

Being a specialty chemicals company, our R&D department is the backbone of the company. It has contributed greatly to the growth and expansion witnessed by Yasho.

Our research has been focused on development and optimization of new products, upgrading processes and improving existing products using green chemistry.

Over the years, we have constantly increased our R&D spending to deliver the best quality products to our customers. Our R&D department has developed a whole range of rubber chemicals, antioxidants, lube additives and various other specialty chemicals indigenously.

VISION
INNOVATION
PROCESS

QUALITY CONTROL

Yasho is dedicated to deliver the best quality products to our customers and our QA and QC departments make sure of this.

Our QC department monitors and ensures good production standards. We have a dedicated team devoted to testing raw materials and finished products.

Our testing laboratory is equipped with modern instruments. Yasho invests significant resources to ensure that we produce the best quality products desired by our customers.

In coordination with R&D and QC, we deliver the highest quality products that are demanded by our customers and we hope to continue to do the same in the future. Yasho products find wide acceptance across the globe which is a testimony for the Quality of our products.
